

Executive remuneration report

2023

Introduction

This report provides an overview of the implementation of Veidekke's guidelines on the remuneration of senior executives (as revised and adopted by the 2023 ordinary general meeting), within the group.

The report on pay and other remuneration received by senior executives of listed companies is mandated by section 6-16 b of the Public Limited Liability Companies Act and is also described in section 6 of the Regulations relating to guidelines and reports on remuneration received by senior executives. In this report, senior executives are defined as the Group CEO and other members of the group management team.

Reference is made to the published document "Guidelines on the setting of remuneration for the CEO and other senior executives at Veidekke ASA", revised and approved by the general meeting on 10 May 2023. The purpose of the report is to practise transparency about the actual remuneration paid to senior executives at Veidekke, and to help ensure that paid remuneration is consistent with the guidelines and the company's goals and results.

The report covers the setting of salaries and other remuneration for senior executives, and details the total remuneration, including both fixed salary and variable benefits, received by Veidekke's Group CEO and other members of group management. The report also describes the fees paid to members of the board of directors.

In 2023, Veidekke generated revenues of NOK 43.1 billion and made a pre-tax profit of NOK 1 444 million, equivalent to a profit margin of 3.3%. The corresponding figures for 2022 were revenues of NOK 38.6 billion and a pre-tax profit of NOK 1 467 million, equivalent to a profit margin of 3.8%.

1 Main principles governing the setting of pay and other remuneration received by senior executives

Main principles governing the setting of pay and other remuneration received by senior executives

Remuneration received by senior executives comprises a fixed element (basic salary) and a variable element (bonus). Together with pension accruals and benefits in kind, the basic salary and the bonus comprise the total remuneration received by an employee for his/her services. The bonus payment depends on whether set strategic targets are achieved. The total remuneration is intended to be competitive, but the company does not wish to be a wage leader.

The board of directors decides the remuneration of the Group CEO. The Group CEO's employment conditions differ from those of other employees. The Group CEO has signed an agreement stipulating a mutual 12-month notice period and 12 months' severance pay in the event of dismissal by the company.

Through the Remuneration Committee, the board advises the Group CEO on the remuneration of executive vice presidents (EVPs). The employment conditions of EVPs differ from those of other employees. All EVPs have signed an agreement stipulating a mutual six-month notice period and 12 months' severance pay in the event of dismissal by the company.

Bonus programmes

Members of group management participate in an annual bonus programme which provides a maximum bonus payment of 50% of annual salary and a long-term bonus programme which provides a maximum bonus payment of 30% of annual salary.

Annual bonus programme

In the case of the Group CEO, half of the bonus is linked to the group's results, 30% is linked to the operational targets described below and a discretionary component of 20% is determined by the board of directors each year based on an overall assessment of target achievement.

For the other members of group management, the bonus is divided into two parts, where the maximum bonus in respect of achieved financial results comprises two-thirds of the bonus and one-third is linked to operational targets. The bonus for achieved financial results is linked to adopted profit-margin targets. The operational targets are linked to cash flow from operations, reductions in injuries, reductions in greenhouse gas emissions and an increase in the number of women operational managers. For heads of operations, half the bonus for achieved financial results is linked to the group's performance and half is linked to the performance of their respective operations. Heads of operations are also responsible for operational targets linked to their respective business areas. For heads of administrative departments, the bonus is based on an average of all operations. In special cases, the Group CEO may, in consultation with the Remuneration Committee, consider and set relative bonus targets and consider awarding a discretionary bonus up to a maximum of 50% of annual salary, assessed on an individual basis.

Criteria linked to financial results (group results and operational results)

Bonuses linked to the achievement of financial results are calculated based on profit before tax (EBT) as stated in the group financial statements. An adjustment is made for any extraordinary profit items. EBT margin is calculated linearly from 2.5% to 5%.

Kommentert [MK1]: Riktig slik? Mening ivaretatt?

4

Criteria linked to operational targets Cash flow from operations

Share of the operational target: 25%

- The minimum level is cash flow of 90% of the profit before tax, rising linearly up to a maximum of 40% more than the profit before tax.
- Prerequisite: Cash flow must exclude expansion investments.

Reduction in all injuries

Share of the operational target: 25%

- No serious injuries (absolute target).
- The minimum level is a 5% reduction, rising linearly up to a 20% reduction compared to the previous year.

Reduction in greenhouse gas emissions

Share of the operational target: 25%

- Annual linear reduction of 4.2% of scope 1, 2 and 3 greenhouse gas emissions (50% reduction 2018–2030).
- The individual year's target is set when the carbon budget is revised and verified each year. If the company has under- or over-performed, the deficit or surplus is distributed over the years remaining until 2030, and a target is set on this basis.

Increase in women operational managers

Share of the operational target: 25%

- The minimum level is two percentage points, rising linearly up to a four percentage point increase in the number of women operational managers.
- Line managers are defined as site managers and upwards.

Long-term bonus programme

The long-term bonus programme runs from 2023 to 2025 (inclusive). The programme is available to group management and the management teams of the different operations. The aim of the programme is to help motivate executives to adopt a long-term perspective in their work for Veidekke, and to ensure that managers have the same incentives to promote the company's development and value creation as the shareholders. The maximum accrual is 90% of annual salary spread over three years, i.e. the maximum annual accrual is 30%. The accrued long-term bonus is paid out after year three (i.e. in 2026). The bonus payment is split into shares in Veidekke ASA (50%) and cash (50%). The shares are subject to a two-year lock-in period

The long-term bonus is calculated by reference to the following performance criteria:

	Bonus outcome	Maximum share
Group results (EBT); starting threshold 4%, cap 6%, linear (based on average value creation over three years)	5%–25%	83%
Greenhouse gas reductions in scopes 1–3 in accordance with the greenhouse gas budget (after year three)	0% or 5%	17%

Benefits-in-kind

Members of group management receive a fixed car allowance or a company car, as well as a free mobile phone, by way of benefits-in-kind.

Pensions

The Group CEO is entitled to retire at the age of 64. The annual allocation to the Group CEO's retirement pension is 35% of pensionable salary minus any payments made into other schemes. Veidekke makes allocations related to the Group CEO's retirement pension. The accumulated reserves are adjusted in line with changes in the value of a diversified portfolio used for Veidekke's pension scheme for employees receiving salaries in excess of 12G (G = the national insurance basic amount). The annual retirement pension is calculated based on the pension balance at retirement, distributed over five years. If the Group CEO becomes unable to work, he is entitled to a pension of 60% of salary until the age of 64.

Terje Larsen and Jørgen Wiese Porsmyr are entitled to an early retirement pension from the age of 64. During the period from their retirement date until their 67th birthdays, they will receive an annual pension equal to 60% of their pensionable salary on the date of their retirement as executive vice presidents. A lifelong retirement pension is payable from the age of 67, and will equal 60% of pensionable salary on the retirement date.

The annual early retirement pension and retirement pension are adjusted annually in accordance with the annual increase in the consumer price index as from the retirement date. If Veidekke's annual pay settlement is less than the annual increase in the consumer price index, this increase may be used as the basis for the adjustment. Any payments from the national insurance scheme, a contractual early retirement pension (AFP) scheme, a group pension insurance scheme and/or any existing paid-up policies are deductible from the pension guarantee.

The pensions and retirement ages of Lars Erik Lund, Hans Olav Sørlie, Øivind Larsen and Anne Thorbjørnsen are as applicable under the company's general defined-contribution pension scheme for Norwegian employees and the closed pension scheme for salary in excess of 12G. Please see Note 22 to Veidekke ASA's annual accounts for 2023 for a more detailed description of the general pension schemes.

For Marcus C. Nilsson and Charlotta Nilsén, the ordinary retirement age is 65. They are members of definedcontribution pension schemes under which Veidekke pays in 35% of salary by way of annual premium. The retirement age of Kristina Andreasson is as applicable under the company's general scheme for Norwegian employees. She is a member of a defined-contribution pension scheme under which Veidekke pays in 25% of salary by way of annual premium.

2 Total remuneration

Group management

3 Share-based remuneration

Veidekke has a long tradition of employee co-ownership. The company's share programmes support Veidekke's business strategy by facilitating ownership of and loyalty to the company's goals and priorities.

Share purchase programme for all employees

The Group CEO and other members of group management may participate in the company's share purchase programme on the same basis as other employees. Shares bought through the programme are sold at a 20% discount in Norway and Denmark and a 25% discount in Sweden and are subject to a two-year lock-in period. The shares may be paid for in cash or via deductions from salary over a 10-month period.

Share purchase programme for senior executives

The Group CEO and other members of group management may participate in the share purchase programme for senior executives and other selected managers. Shares are offered to this group once a year at a 20% discount in Norway and Denmark and a 25% discount in Sweden. The lock-in period for the shares is three years. Veidekke offers financing as part of the programme. The maximum number of shares available to individual members of group management under the programme is 5,000 per year. The maximum loan is NOK 1 million. As at 1 January 2024, loans under the programme carried an interest rate of 2.5% in the case of Norwegian participants, 2.0% in the case of Swedish participants and 0% in the case of Danish participants. In 2023, the interest rate applicable to Swedish and Norwegian employees was 0.8%. The loans are repayable over a period of 15 years.

Option programme for senior executives

Veidekke operated an option programme for senior executives in the period 2019–2021. Under this programme, options equal to a maximum of 1% of the number of shares in Veidekke ASA on the allocation date were allocated annually. The option's purchase price on the allocation date was NOK 1. The strike price equals the quoted price on the allocation date. To provide long-term incentives, options accrue over a period of three years: 25% at the end of the first year, 25% at the end of the second year and 50% at the end of the third year. Accrued options may be exercised during time periods defined by Veidekke. Option accrual is conditional on a participant being an employee of Veidekke ASA or a subsidiary. Shares purchased through the option programme may not be sold for one year after the date when the option is exercised. Options must be exercised within five years of the allocation date. Options which are not exercised during this five-year period or on the expiry date lapse without compensation. Options may be exercised until 2026.

4 The company's right to demand repayment of variable remuneration

The company has the right to demand repayment of variable remuneration. Consideration has been given to whether there are grounds for demanding repayment of variable remuneration in 2023. No such instances were identified in 2023.

5 Information on compliance of remuneration with the remuneration guidelines and on the use of performance criteria

The remuneration paid in 2023 is in accordance with the remuneration guidelines adopted by the general meeting.

The bonus payment to the Group CEO is based on the stated performance criteria. The board of directors has approved a payment totalling 28% of annual salary for 2022 (paid in 2023) and a payment totalling 30% of annual salary for 2023 (to be paid in 2024). Bonus payments to other members of group management are also based on the stated performance criteria. No discretionary assessments have been undertaken for other members of group management.

While the long-term bonus programme did not result in any bonus payout linked to financial results in 2023, progress on greenhouse gas reductions was as budgeted. However, any bonus payout in this regard will not occur until 2026.

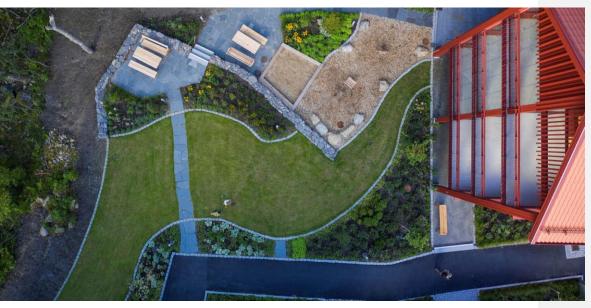

The total remuneration paid to senior executives contributes to the company's long-term performance, as the bonus programmes target strategic factors such as margin increases, cash flow and various sustainability-related targets.

The table below provides an overview of the details of the bonus programme for senior executives and bonus attainment.
